CA111 Media Air Cleaner

**Ceiling mount commercial air cleaner
featuring Hepa-Flow CPZ™ Technology
with three-speed remote switch**

The Casino Air CA111 provides up to 1250 CFM of self-contained air flow. It removes tar, nicotine, and paper ash from the air. In addition, CPZ modules remove all of the tobacco odors from the air.

- The CA111 Media Air Cleaner is equipped with a choice of HEPA filter along with 40 pounds of CPZ™ to adsorb gases and odors as they pass through the unit. CA111 provides the highest amount of CPZ™ then any other competitive unit of its size in the market.
- Choose 99.97% HEPA filter wherever maximum particle efficiency is required, for instances Clean Rooms, Laboratories, Health & Critical Markets and similar applications.

CA111 CPZ™

The grill swings down easily for filter replacement and is removable for easy cleaning.

- Efficient Coanda airflow ensures the purified air is re-circulated evenly in the room, eliminating stuffy air pockets. It also reduces cycling of the HVAC system by re-circulating conditioned air.

Particles aren't always the problem

Anywhere gases, odors and volatile organic compounds (VOCs) are a part of doing business – you'll want an air cleaner that includes CPZ™ sorbent media. Depending on your particular application, we can adjust the CPZ™ formula to solve your specific need.

- The solid state, Three-Speed Remote Switch allows controlling air flow and sound level. It can be mounted adjacent to the unit on the ceiling or on the wall for remote operation.

CA111 Series 3 Specifications

Models*	Filters		Airflow (CFM)			Electrical Rating	Dimensions
	Media	CPZ (2) - 40 lbs	High	Medium	Low		
CA111A1253W	1 - 95% ASHRAE	NO	1250	800	450	120V / 60Hz	Length : 46.75" Width : 22.75"
